CONCEPT

ELECTRIC PUSH CART STORAGE SOLUTIONS

CHARGING MADE EASY AND EFFICIENT

Electric push carts are the way of the future for avid golfers. Golf courses with a simple, weatherproof storage and charging solution are leading the industry, enhancing the golf experience by offering this easily accessible, efficient and organized feature for their members.

CONCEPT

Introducing our innovative Cart Locker – a patent-pending powder-coated stainless steel unit designed for secure, weatherproof storage. With a slanted roof, vented back wall, and a secure padlock system, it ensures the safety of electric push carts while keeping them dry and free from the elements.

Our Cart lockers are compatible with various electric push cart brands and excel at charging not only carts but also your essential devices like cell phones, laptops, and portable speakers.

The bonus component is each golfer now has a personal locker for one's briefcase, gym bag, or anything else one may need to tuck away, while on the course.

And being able to move the Electric push-cart storage from inside to outside, makes it so much more easily accessible for your members, plus alleviates your need to have a concierge or locker attendant.

Our Cart Locker comes in stacks of a minimum of 3 lockers and up to a maximum of 20 lockers a unit. This makes it versatile for any allowable area and the adjustable feet ensure stability on various terrains. Customize them to fit your golf course's unique needs, incorporating as many as you want in different setups and directions.

The best part? This multi-purpose storage solution can generate revenue for your golf course.

CLUB REVENUE

Want to generate revenue for the club while solving storage needs?

Cover your investment in three to five years and generate savings for the course with minimal to no staff maintenance. With flexible installation, you can create either a wide-open space for the lockers or fit them into crevasses and corners, providing an increasingly attractive solution that is more compelling than ever.

Rent out these lockers to your members every year, offering as few as three lockers and as many as 20 within one unit. Some clubs have incorporated as many as 90 units.

Think of the revenue, cost savings, and ease of having THE CART LOCKER as part of your facility.

TESTIMONIALS

THE CART LOCKER EMPOWERED US TO MAXIMIZE OUR STORAGE CAPACITY WHILE ELEVATING THE OVERALL EXPERIENCE OF OUR MEMBERS!

"We encountered a challenge due to the overwhelming demand for electric cart storage, and our existing space couldn't meet the needs of all our valued members. The introduction of the Cart Locker proved to be the ideal solution. The streamlined efficiency of the Cart Locker system empowered us to fully maximize our storage capacity while elevating the overall experience for our members."
