- Fits a wide range of cart brands
- Charge phone, laptop, portable speaker and also garmin with multiple USB port in each lockers

- Locker becomes additional personal storage space for members while on the course

- Generate additional revenue for the club

COLOURS CUSTOMIZATION & CART BRANDS

Our Cart Lockers are available in an expanding array of colors, allowing you to create a sleek and organized look that perfectly complements your course.

Additionally, each locker can be customized with elegant club logo plates, elevating the solution to the highest standard of professionalism.

A bonus advantage of The Cart Locker is its ability to generate additional revenue. Our lockers accommodate a wide range of electric motorized cart brands, enabling the Pro Shop to sell these carts and their accessories.

This not only enhances convenience for members but also creates a valuable revenue stream for the club or course.

STREAMLINE OPERATIONS ELEVATE MEMBER EXPERIENCE CHANGE THE GAME FOR YOUR CLUB

LABOR SAVINGS

Streamlining operations reduces staff demands and frees up valuable space within the club. Moving lockers outdoors makes them easily accessible to your members, enhancing convenience and efficiency.

GENERATE REVENUE

Unlock new revenue opportunities for your course or club by renting lockers to members and selling electric motorized carts and accessories through the Pro Shop.

REDUCE RISK OF FIRE

Storing and charging electric motorized carts indoors poses a significant fire risk. Lithium-ion batteries have been linked to serious fires worldwide, and charging multiple carts can strain indoor electrical systems. The Cart Locker offers a safer, more organized solution, minimizing fire hazards and reducing risks for the club.

APPEAL TO MEMBERS

Electric motorized carts have made golf more accessible and enjoyable for players worldwide. They empower individual golfers to hit the course or driving range with ease and appeal to those seeking a fun way to stay active while walking the course for exercise. The Cart Locker takes this experience to new heights of convenience and excellence.

We encountered a challenge due to the overwhelming demand for electric cart storage, and our existing space couldn't meet the needs of all our valued members. The introduction of the Cart Locker proved to be the ideal solution.

The streamlined efficiency of the Cart Locker system empowered us to fully maximize our storage capacity while elevating the overall experience for our members.

Pat Wilmot ~Head Golf Professional~
Earl Grey Golf Club

Their high quality lockers provide our active membership with a classy way to store their power caddies. It gives the club an additional revenue stream and creates an added incentive for members to purchase the power caddies from the Pro Shop.

Our 66 lockers are fully subscribed, and we now have a wait list for people who require additional storage. This is a great problem to have!

Matt Freeman ~Head Golf Professional~
Canyon Meadows

With the installation of Cart Lockers in the 2022 season we were able to clear our power caddy waitlist and offer our membership a safe, reliable, and attractive storage solution for this growing market.

Our Cart Lockers are branded to our club, look great, and most importantly, gave us a perfect solution to a longstanding problem. I would recommend Cart Lockers to any facility looking to solve storage issues while maintaining a high service level.

Andrew McCarthy ~Head Golf Professional~
Donalda Club

We needed a storage solution for the growing number of electric motorized carts. The back shop was already full, and we couldn't provide power for all the chargers.

Since adopting The Cart Locker, our members are thrilled! They no longer have to haul their electric carts to their cars. They can charge their phones, speakers, or Garmins and have a locker for personal items while on the course.

We started with 36 lockers and now have 96! It's been a convenient solution and a valuable source of revenue!
